

The Art Institute of Boston at Lesley University A I C A D

The Art Institute of Boston at Lesley University is a small, professional college of visual art, located in the Fenway area of Boston. AIB offers small classes, much individual attention from talented faculty, and quality studio spaces and art making technologies. AIB students receive an intensive art education combined with the benefits of the classes and resources of a larger university.

AIB is an art school through and through. From the moment you walk in, you'll be thinking, learning, doing art. Reaching farther, seeing what's possible and taking advantage of the collective creative energy here that will fuel your future. AIB faculty and alumni are working professionals, successful artists, designers, and innovators.

Located in Boston, students flock to this city for its youthful energy, music scene, internship opportunities and world-class museums. A recent nationwide rating of higher-education destinations ranked Boston number one in academic environment, cultural and social resources, quality of life, and professional opportunities.

AIB is one of four schools within Lesley University, a multi-site liberal arts university located in Cambridge, across the Charles River from Boston. AIB and Lesley students live together in Lesley's residence halls, and participate in clubs/activities and varsity sports. Because of this affiliation, AIB students can study and pursue Lesley College minors in creative writing, psychology, management and many other programs. AIB students can also prepare for graduate study in Lesley's art education and art therapy programs. AIB offers the best of both worlds: an intensive, professional art making environment combined with the benefits of a larger University.

Strengthened by our newly required Internship program and by Lesley's Office of Career Services, AIB graduates go into the real work with the skills needed to get a job and achieve their professional goals.

NOTE 1: "Full-Time Equivalent" is the common way to measure the relative size of colleges. This adjusts for differences in the percentage of part-time students (or faculty). For example: one full-time student = 1 FTE; three half-time students = 1.5 FTE, etc. NOTE 2: Retention & graduation rates are calculated using "First-Time, Full-Time Freshmen" as required by the U.S. Department of Education. In schools with large transfer populations, these rates can vary quite a bit from year to year. NOTE 3: Geographic distribution is reported for first-time degree/certificate-seeking undergraduates. NOTE 4: Includes all institutional scholarships and grants, but does not include College Work Study or third party awards. NOTE 5: Data presented is drawn from the most recent school year available.
